

Sango

Paving the way for a future of
endless possibilities

Concept Deck

sango.org

**Creating a digital-first blockchain
based economy directly in the
Central African Republic**

**Banking the unbanked & financial inclusion.
Facilitating access to digital financial instruments
for all residents of the Central African Republic
with mobile-first blockchain technology**

**Bitcoin was adopted as legal tender of
the Central African Republic on April
21st 2022
0% tax for cryptocurrency
transactions**

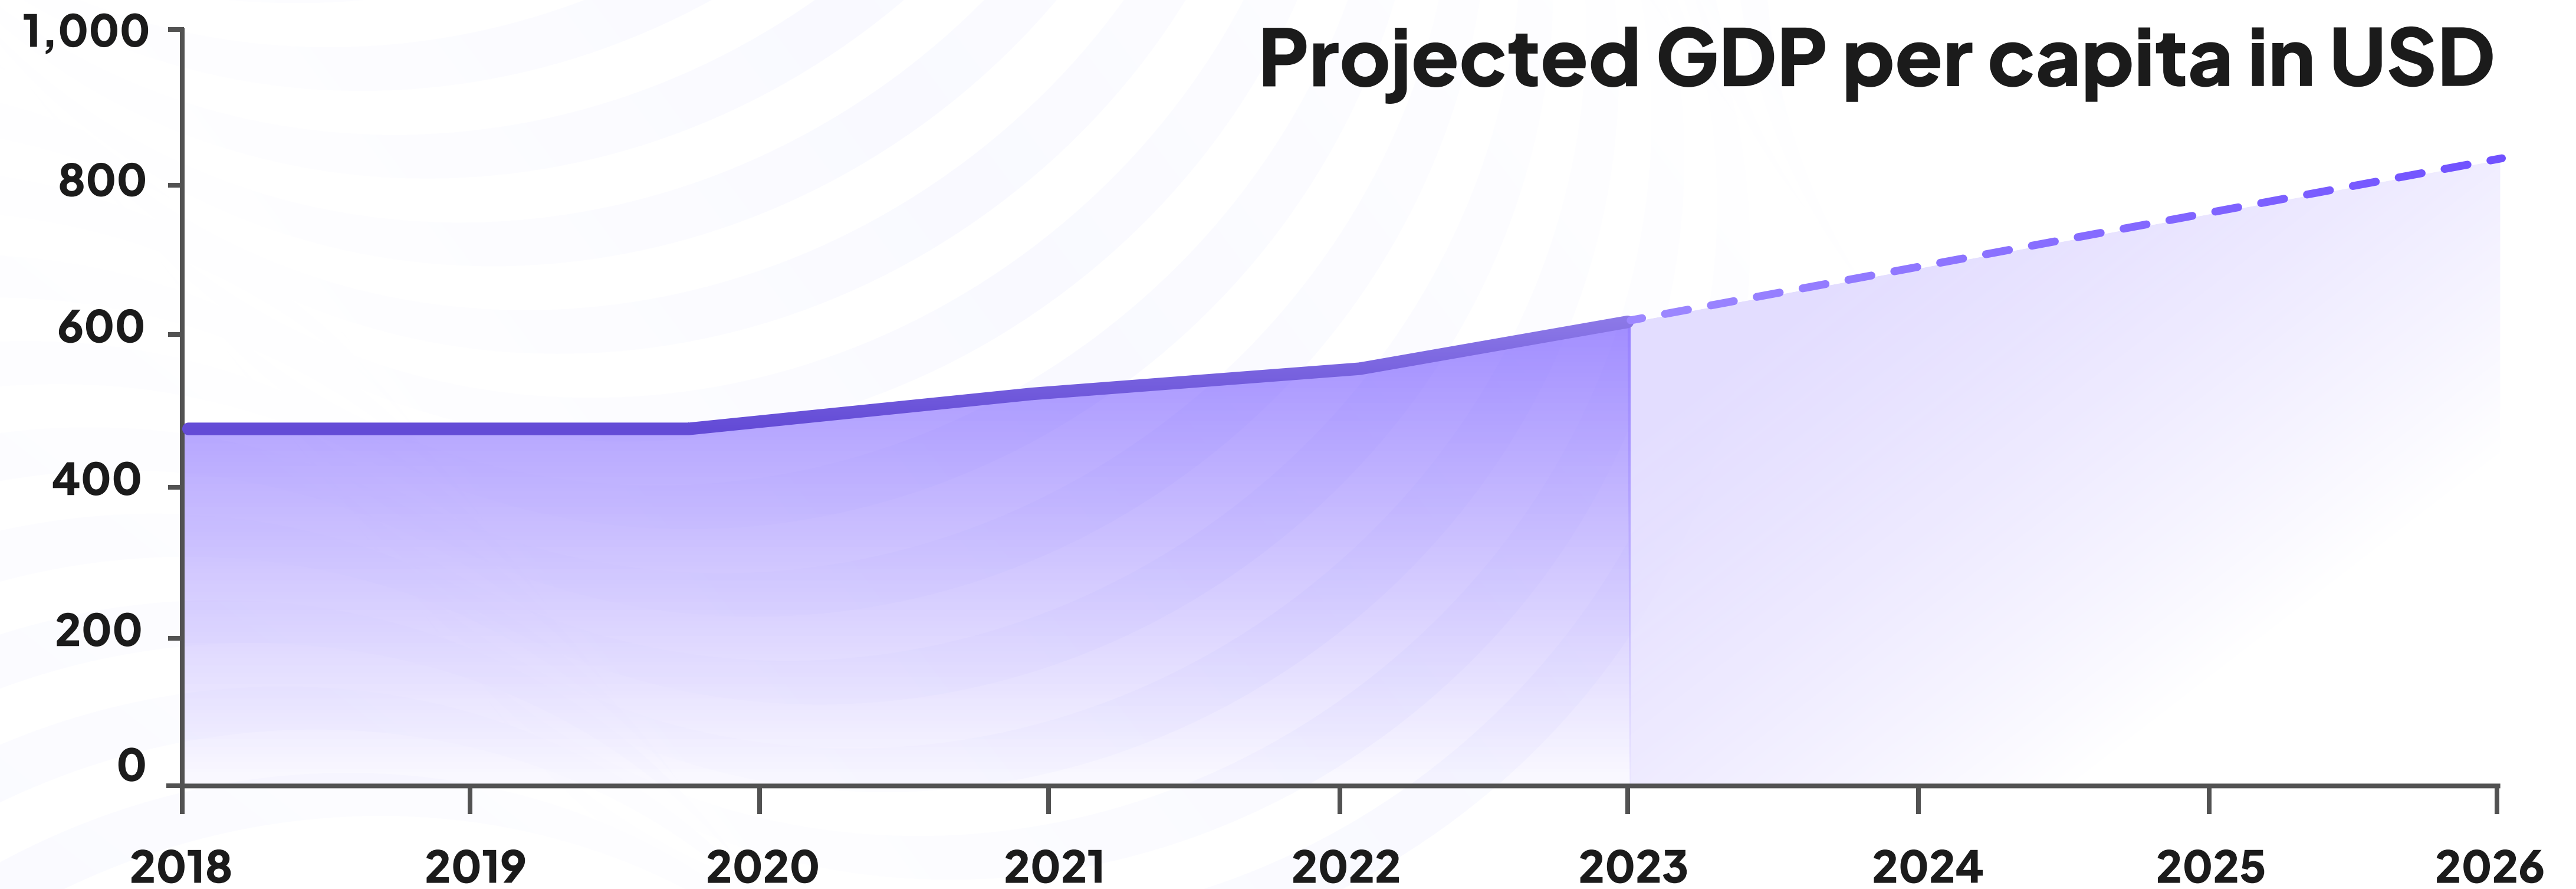

**Infrastructure development:
renewable energy sources,
transportation, mining operations and
modern agriculture**

Opportunities

The economy of the Central African Republic has much potential for growth with Sango leading the digital transformation

Sango Milestones

200,000
annual tourists by 2030

25,000
new homes built

30,000 m²
retail and commercial
spaces built

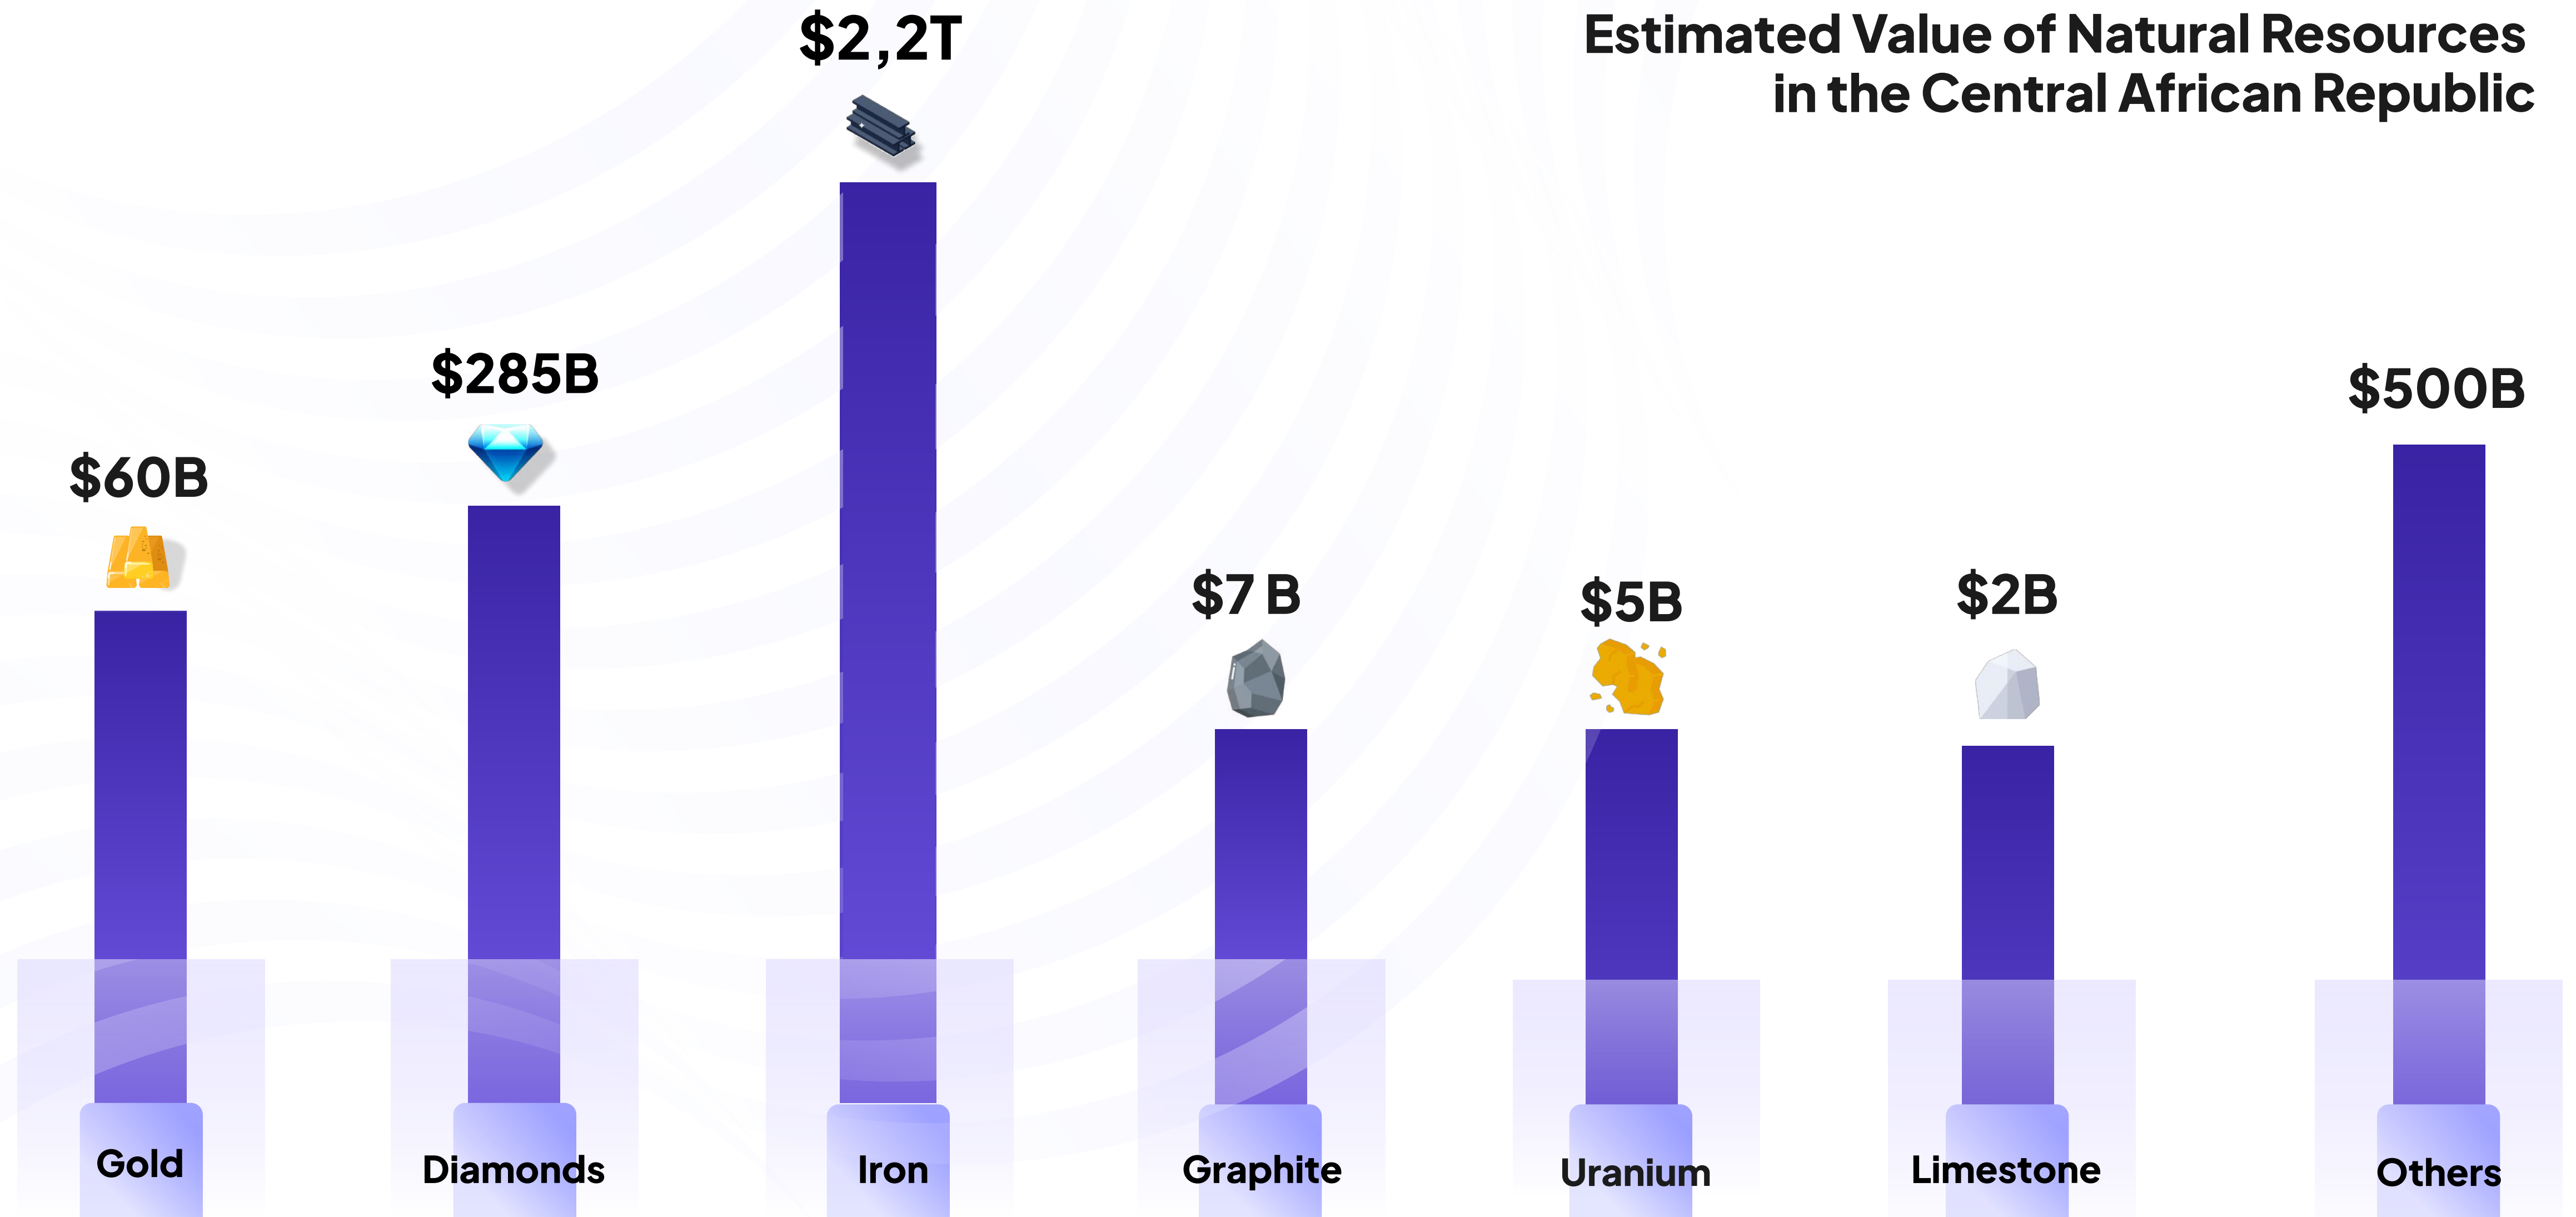

50,000
residents in Crypto City
and Crypto Island

70,000
jobs created by 2030

Sango: the tokenization of Central African Republic's natural resources

Estimated Value of Natural Resources in the Central African Republic

The Central African Republic has an area bigger than Germany, with an vast agriculture and resources exploitation potential

Great demographic potential with 70% young population, that will represent the future workforce and the main driver for sustainable growth

**Africa is the continent of the future, especially in areas such as finance and IT&C
Mobile first banking proven the potential of leapfrogging**

Huge renewable energy potential with solar and hydropower, renewable sources that can be used for clean Bitcoin mining

The creation of a Crypto Hub with dedicated legal framework that will provide stability and confidence for investors and will trigger fast economic growth not only for the Central African Republic, but for the entire region

The Central African Republic is in pole position to host Africa's first Crypto Hub and become a regional Crypto Power

Central African Republic 2022 Country economic indicators

GDP (PPP)	\$4.7 billion
GDP per capita	\$500
5-year annual compound growth	3.2%
Inflation (CPI)	2.3%
FDI Inflow	\$35 million

Main development areas

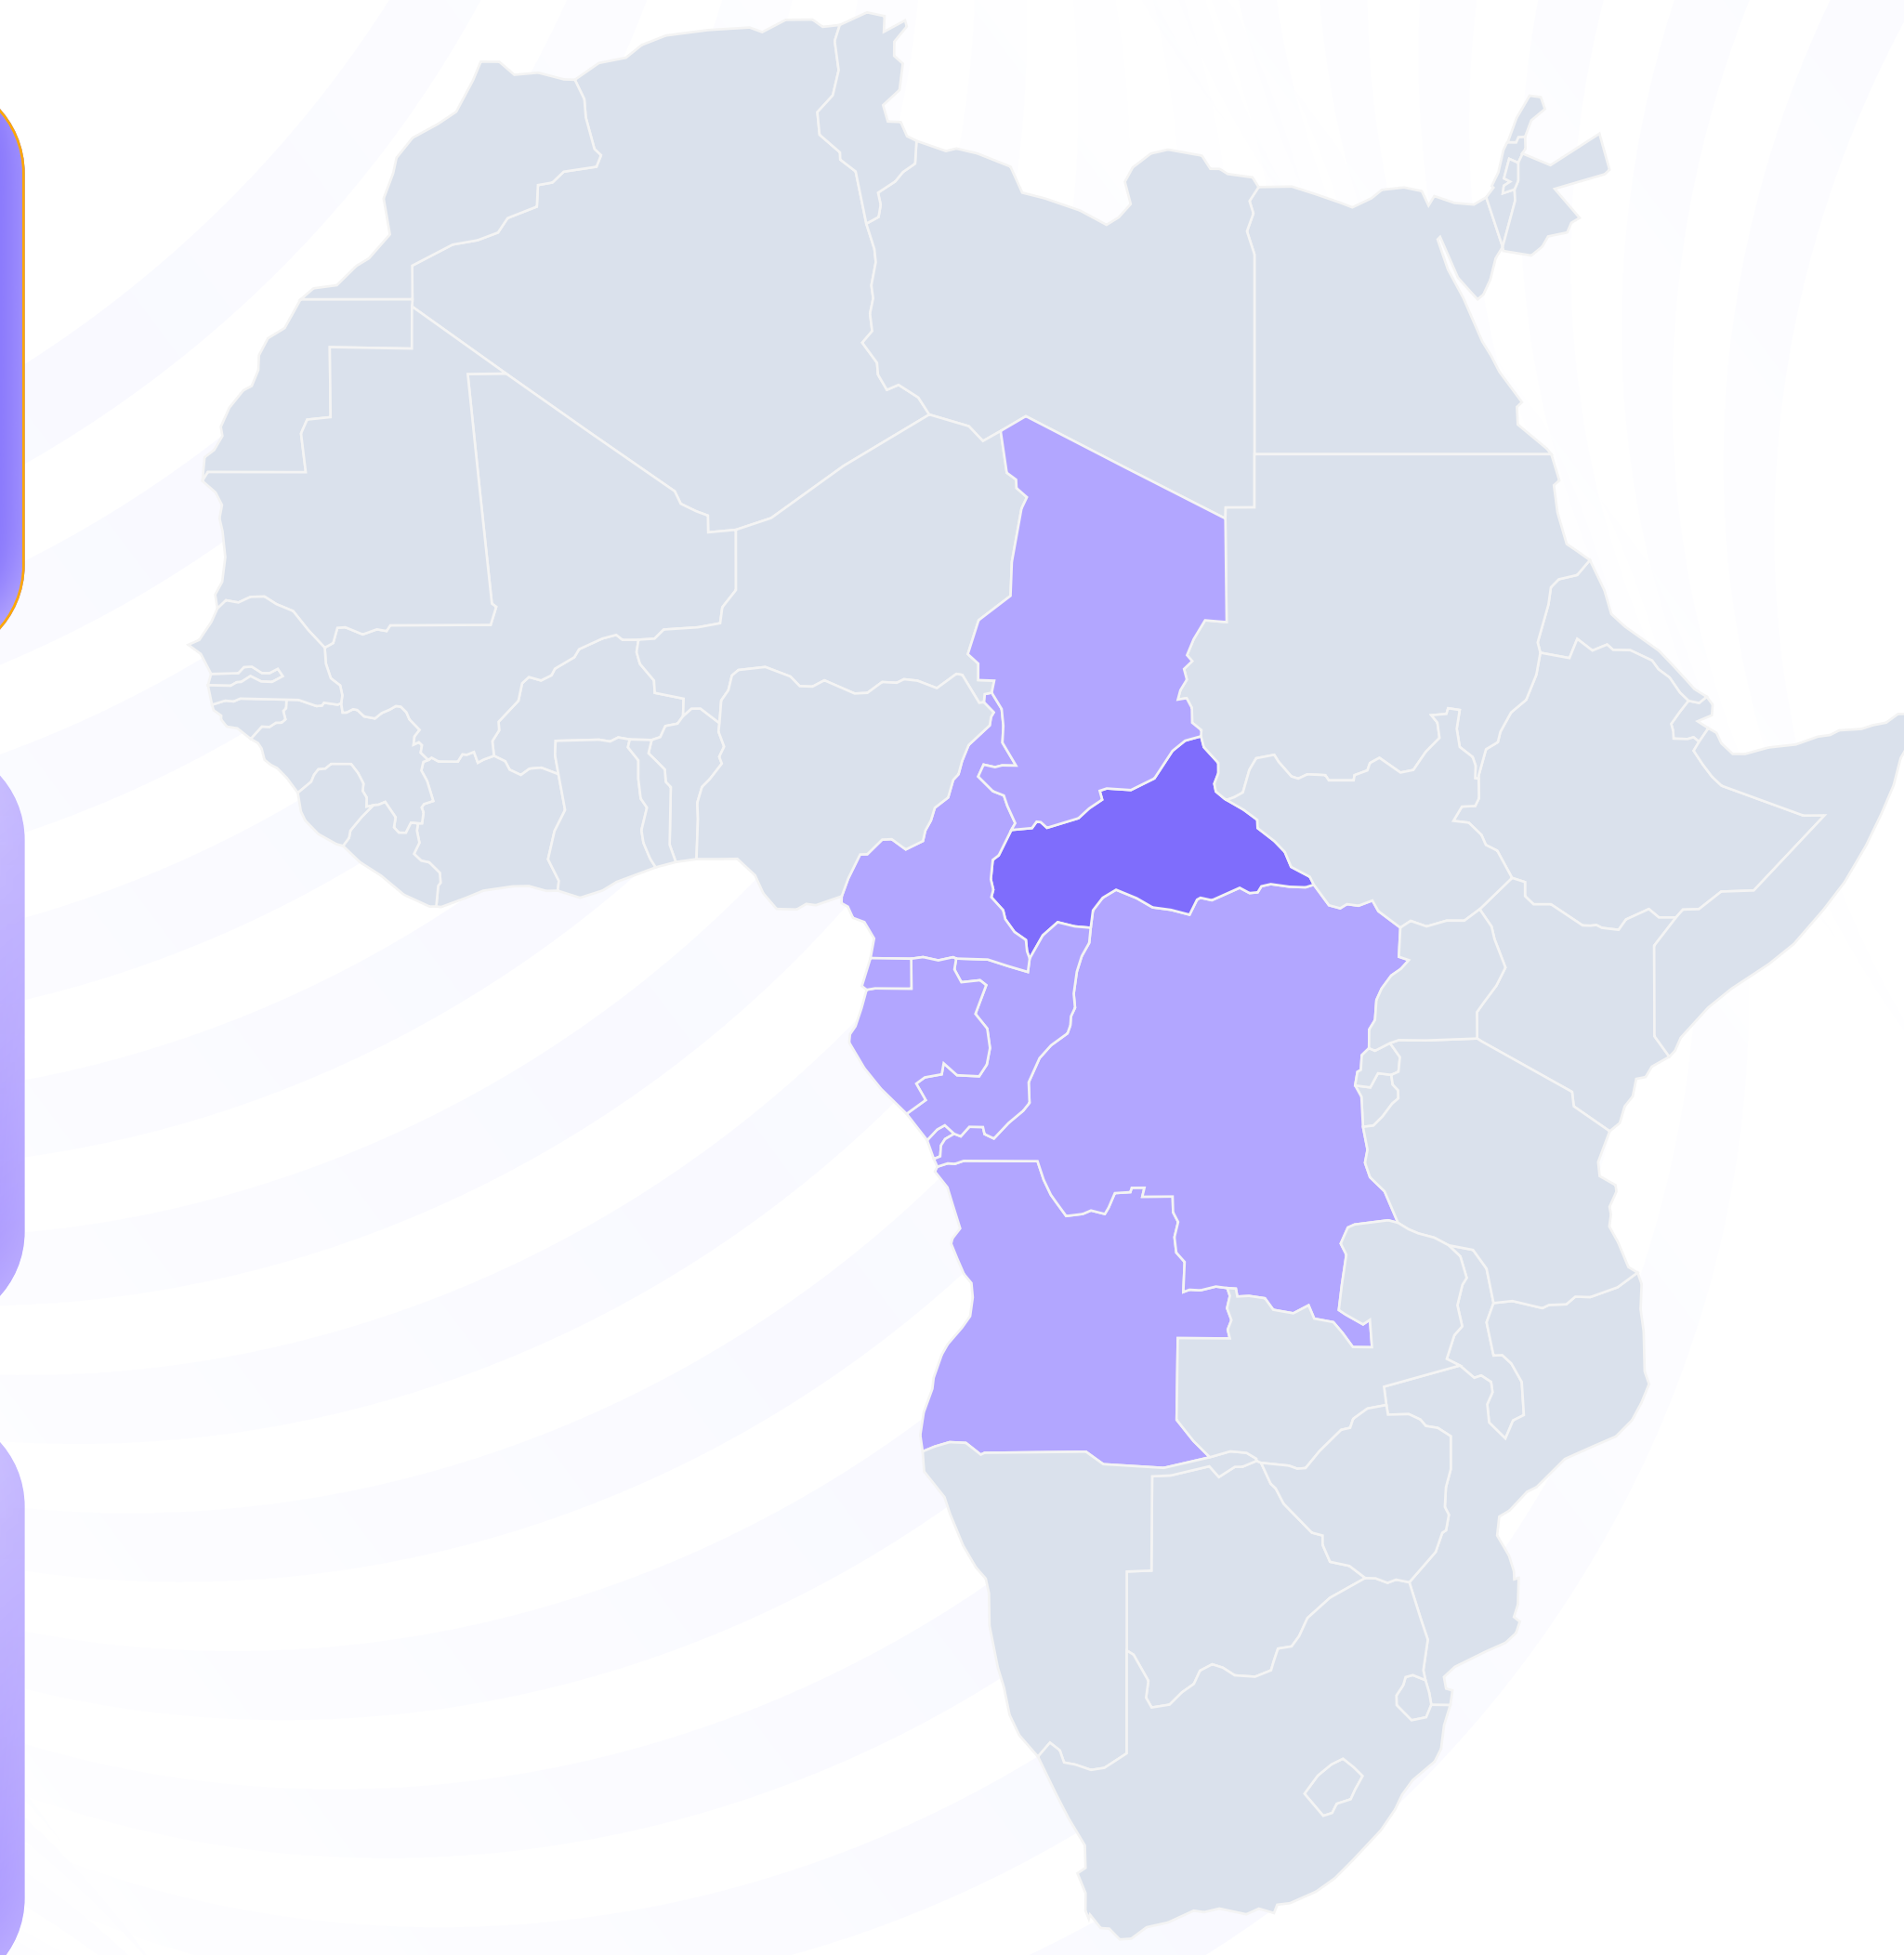

Weak domestic resource mobilization

Weak external demand & private transfers

Lack of human capital as a key driver of sustainable economic growth & poverty reduction

Limited tax base

Crypto Hubs have a lasting positive effect on local and international communities, with Africa requiring one to aggregate its projects

**Financial
Inclusion**

Startups

**Renewable
energy**

Education

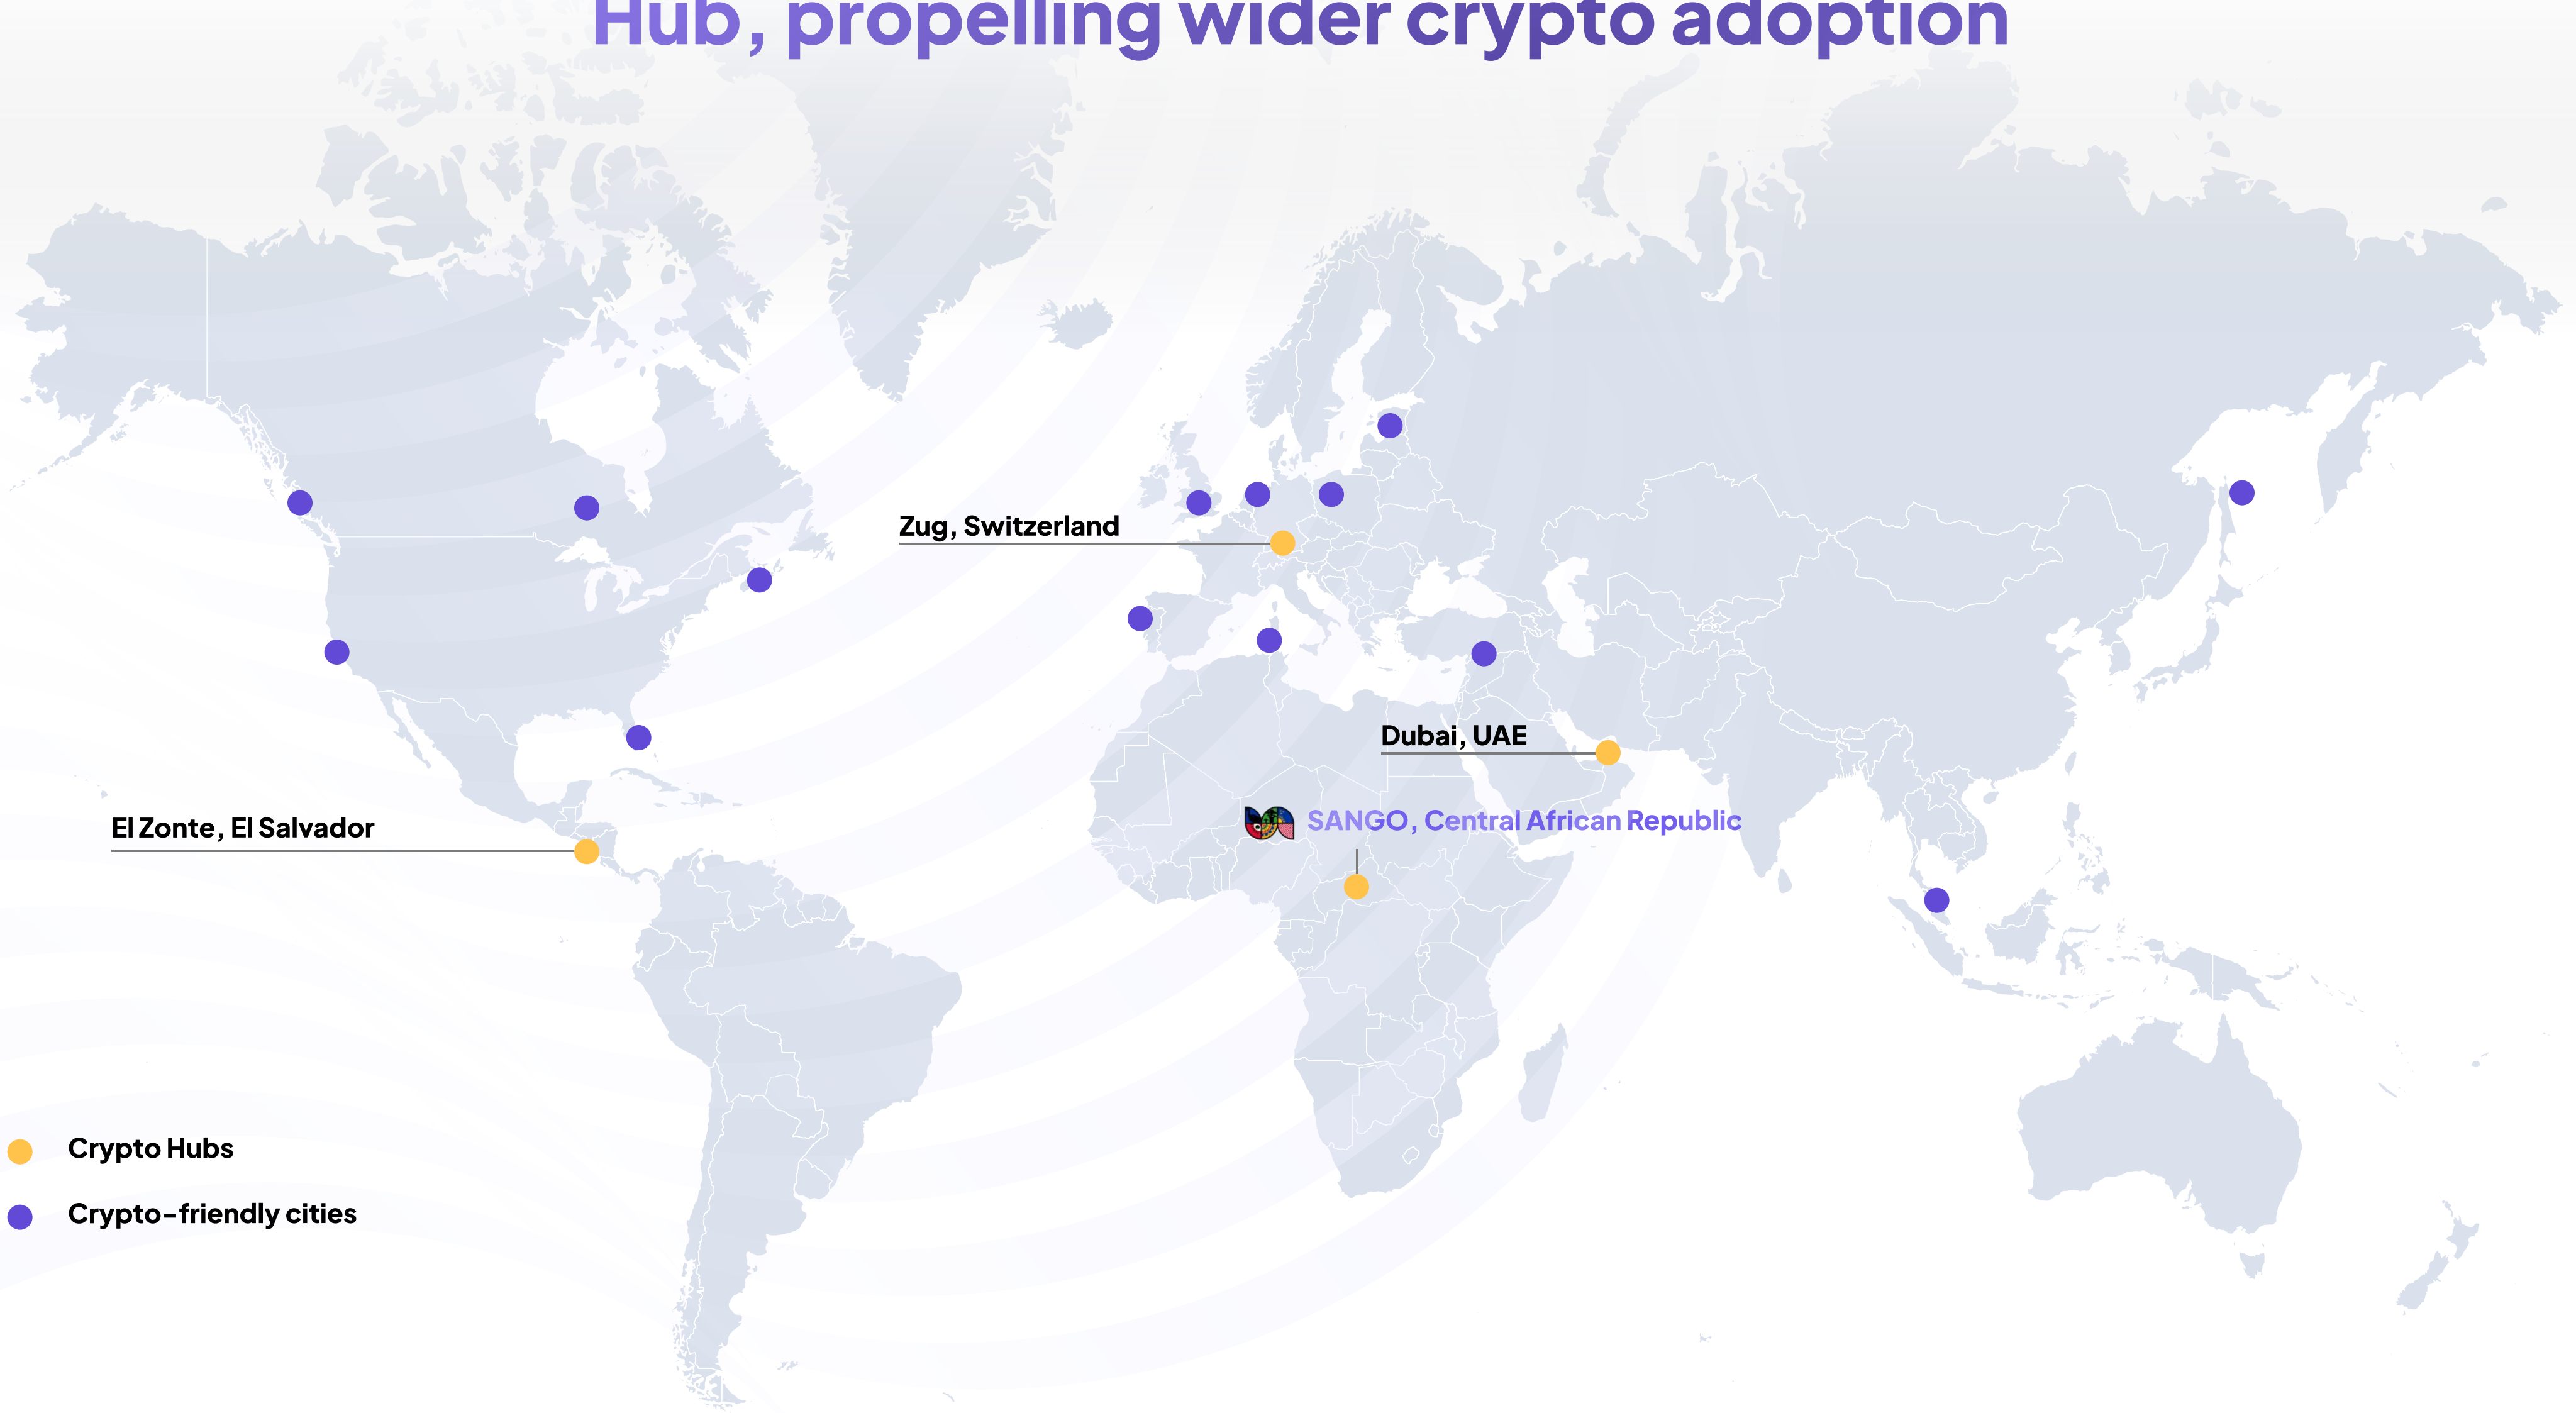

IT&C

Africa is the continent with the highest number of peer to peer transactions in Bitcoin and other cryptocurrencies

Peer to peer Transaction in crypto region (% of total transactions)

Sango is uniquely positioned to take the lead as Africa's Crypto Hub, propelling wider crypto adoption

El Zonte, El Salvador

Zug, Switzerland

Dubai, UAE

 SANGO, Central African Republic

- Crypto Hubs
- Crypto-friendly cities

With the full support of government and authorities, Sango will help power a new digital-first economy in Africa

Legal Framework

Digital infrastructure

Physical infrastructure

A legal framework designed to become the foundation for a digital-first society in the heart of Africa initiated by adopting Bitcoin as legal tender

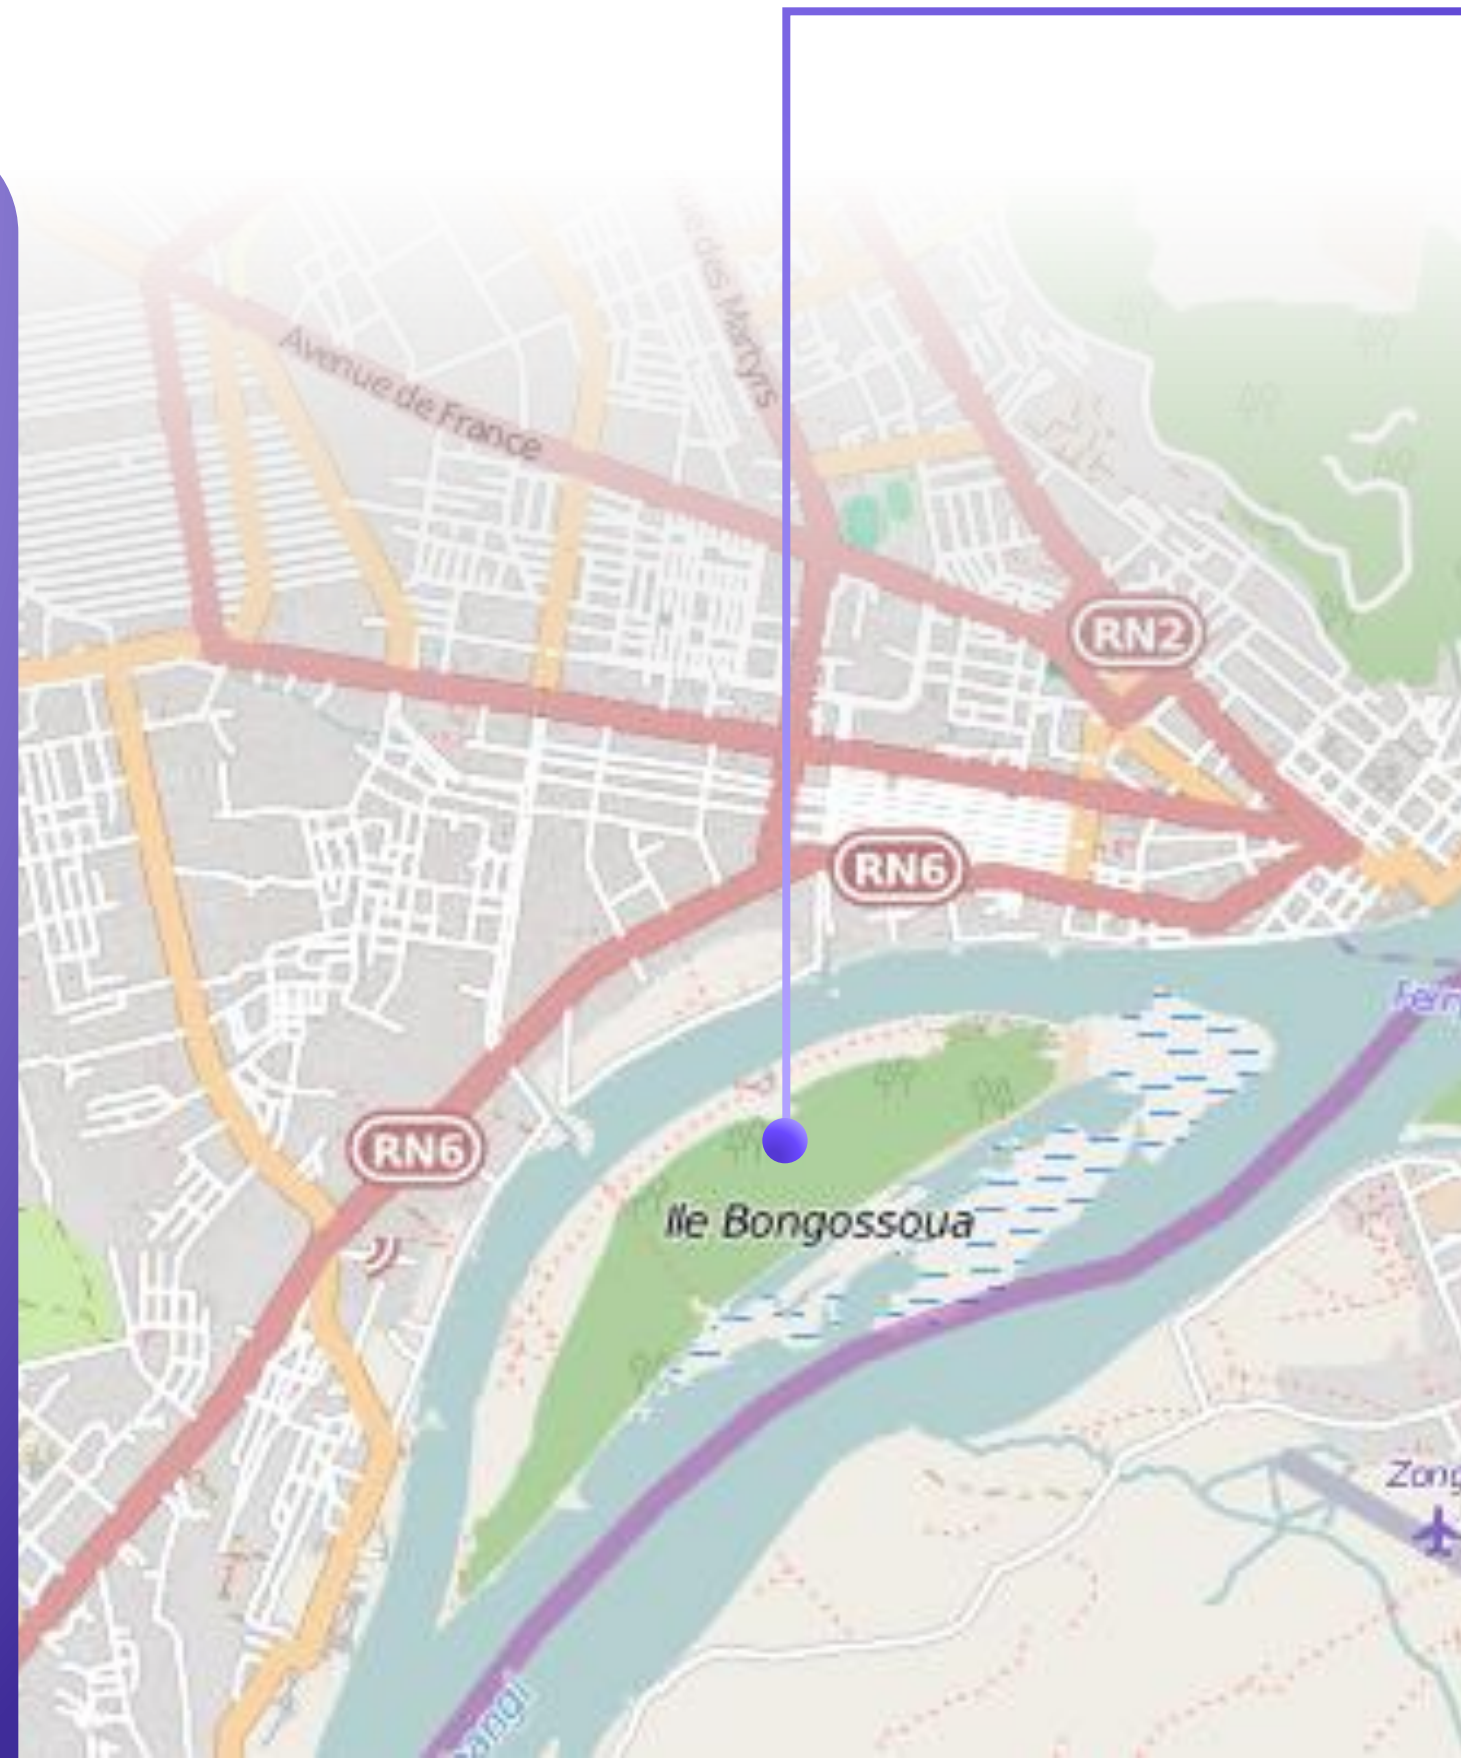

Building on top of the Bitcoin blockchain a new generation of digital infrastructure that will power e-Gov services and empower people to connect and create beyond borders in the Metaverse

Physical infrastructure with technology at its core: this is the vision to transform the Central African Republic into the oasis of the future

Crypto City and Crypto Island will have Metaverse representations backed by reality, in Bangui area, Central African Republic's capital

Crypto City

- Blockchain allows direct land registration, creating a massive use cases in real estate
- CAR Gov is the largest landowner
- With the establishment of the Crypto Hub, CAR welcomes investors from all over the world to relocate within its Crypto City, providing the best advantages out of all Crypto Hubs, with land purchases possible with Bitcoin

Crypto Island

- Located on the Ubangi River, the Crypto Island is the jewel of Crypto City
- Users that buy land in the Metaverse receive land in real-life as well
- Users can fully manage their dealings with the State within the Metaverse, as well as explore the area and observe its developments

Vision

Sango Bitcoin Layer-2

Digital Gold

Decentralized

Incredibly secure

Sango: Bitcoin Sidechain with
complementary features

Confidential layer

Highly scalable

Smart contracts

Sango is secured by cross-institutional validators

Sango validators will be represented by democratically elected institutions from the Central African Republic

Presidency

Ministers

National Assembly

Proof of Work

Proof of Convention

Proof of Stake

Tendermint based Consensus

Sidechain Structure

e-Gov services

Digital Identity

Scalable

Modular design

**21 nodes validator nodes
represented by Institutions from the
Central African Republic**

Smart Contracts

Digital Ownership

Battle tested consensus

Secure

Sango App: the universal gateway for the Sango Ecosystem

Digital identity management

Metaverse identity for citizens | Remote citizenship | E-residency management | Automatic VAT Collection

Asset Management

Land purchases from the government | Asset protection | Preservation through tokenization of national resources | Automotive registration | Invoice tracker | Ownership renewal, cancellation and transfer

Financial and payment functionalities

Send and receive money instantly | Contactless payment system

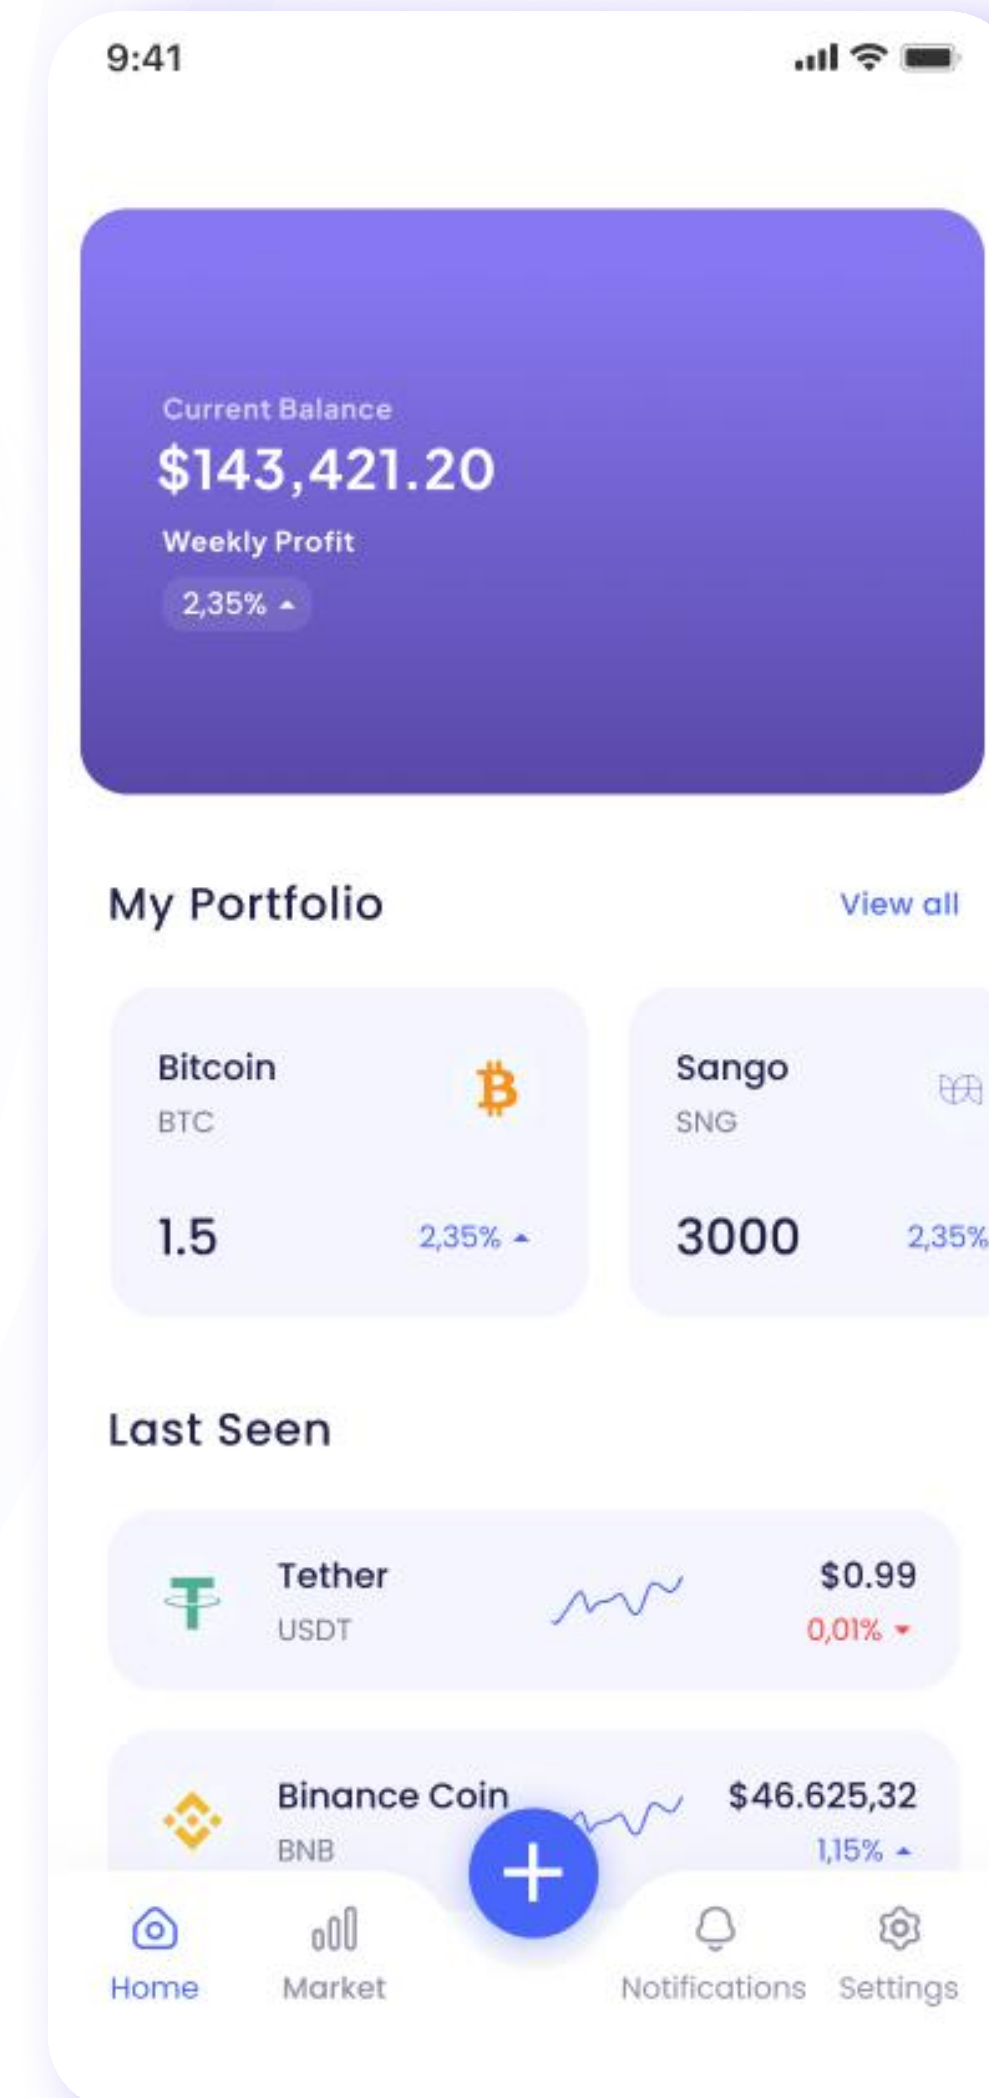

Business management

Online/remote company registration (max 24h approval time) | Link between legal entity and digital identity | Interface for public authorities

Future developments

Insurance Management | Public Auctions on Blockchain | P2P Messaging | Email services | Decentralized storage

Coin

SANGO Multi-dimensional Asset

Transfer of Value

Pay and get paid instantly and securely across borders, powered by blockchain technology

Voting & Governance
A voice for every citizen to shape their future

Digital Identity & Ownership
Puts you in control over your identity & assets

through SANGO**

**Access to the country's
natural resources available
through SANGO**

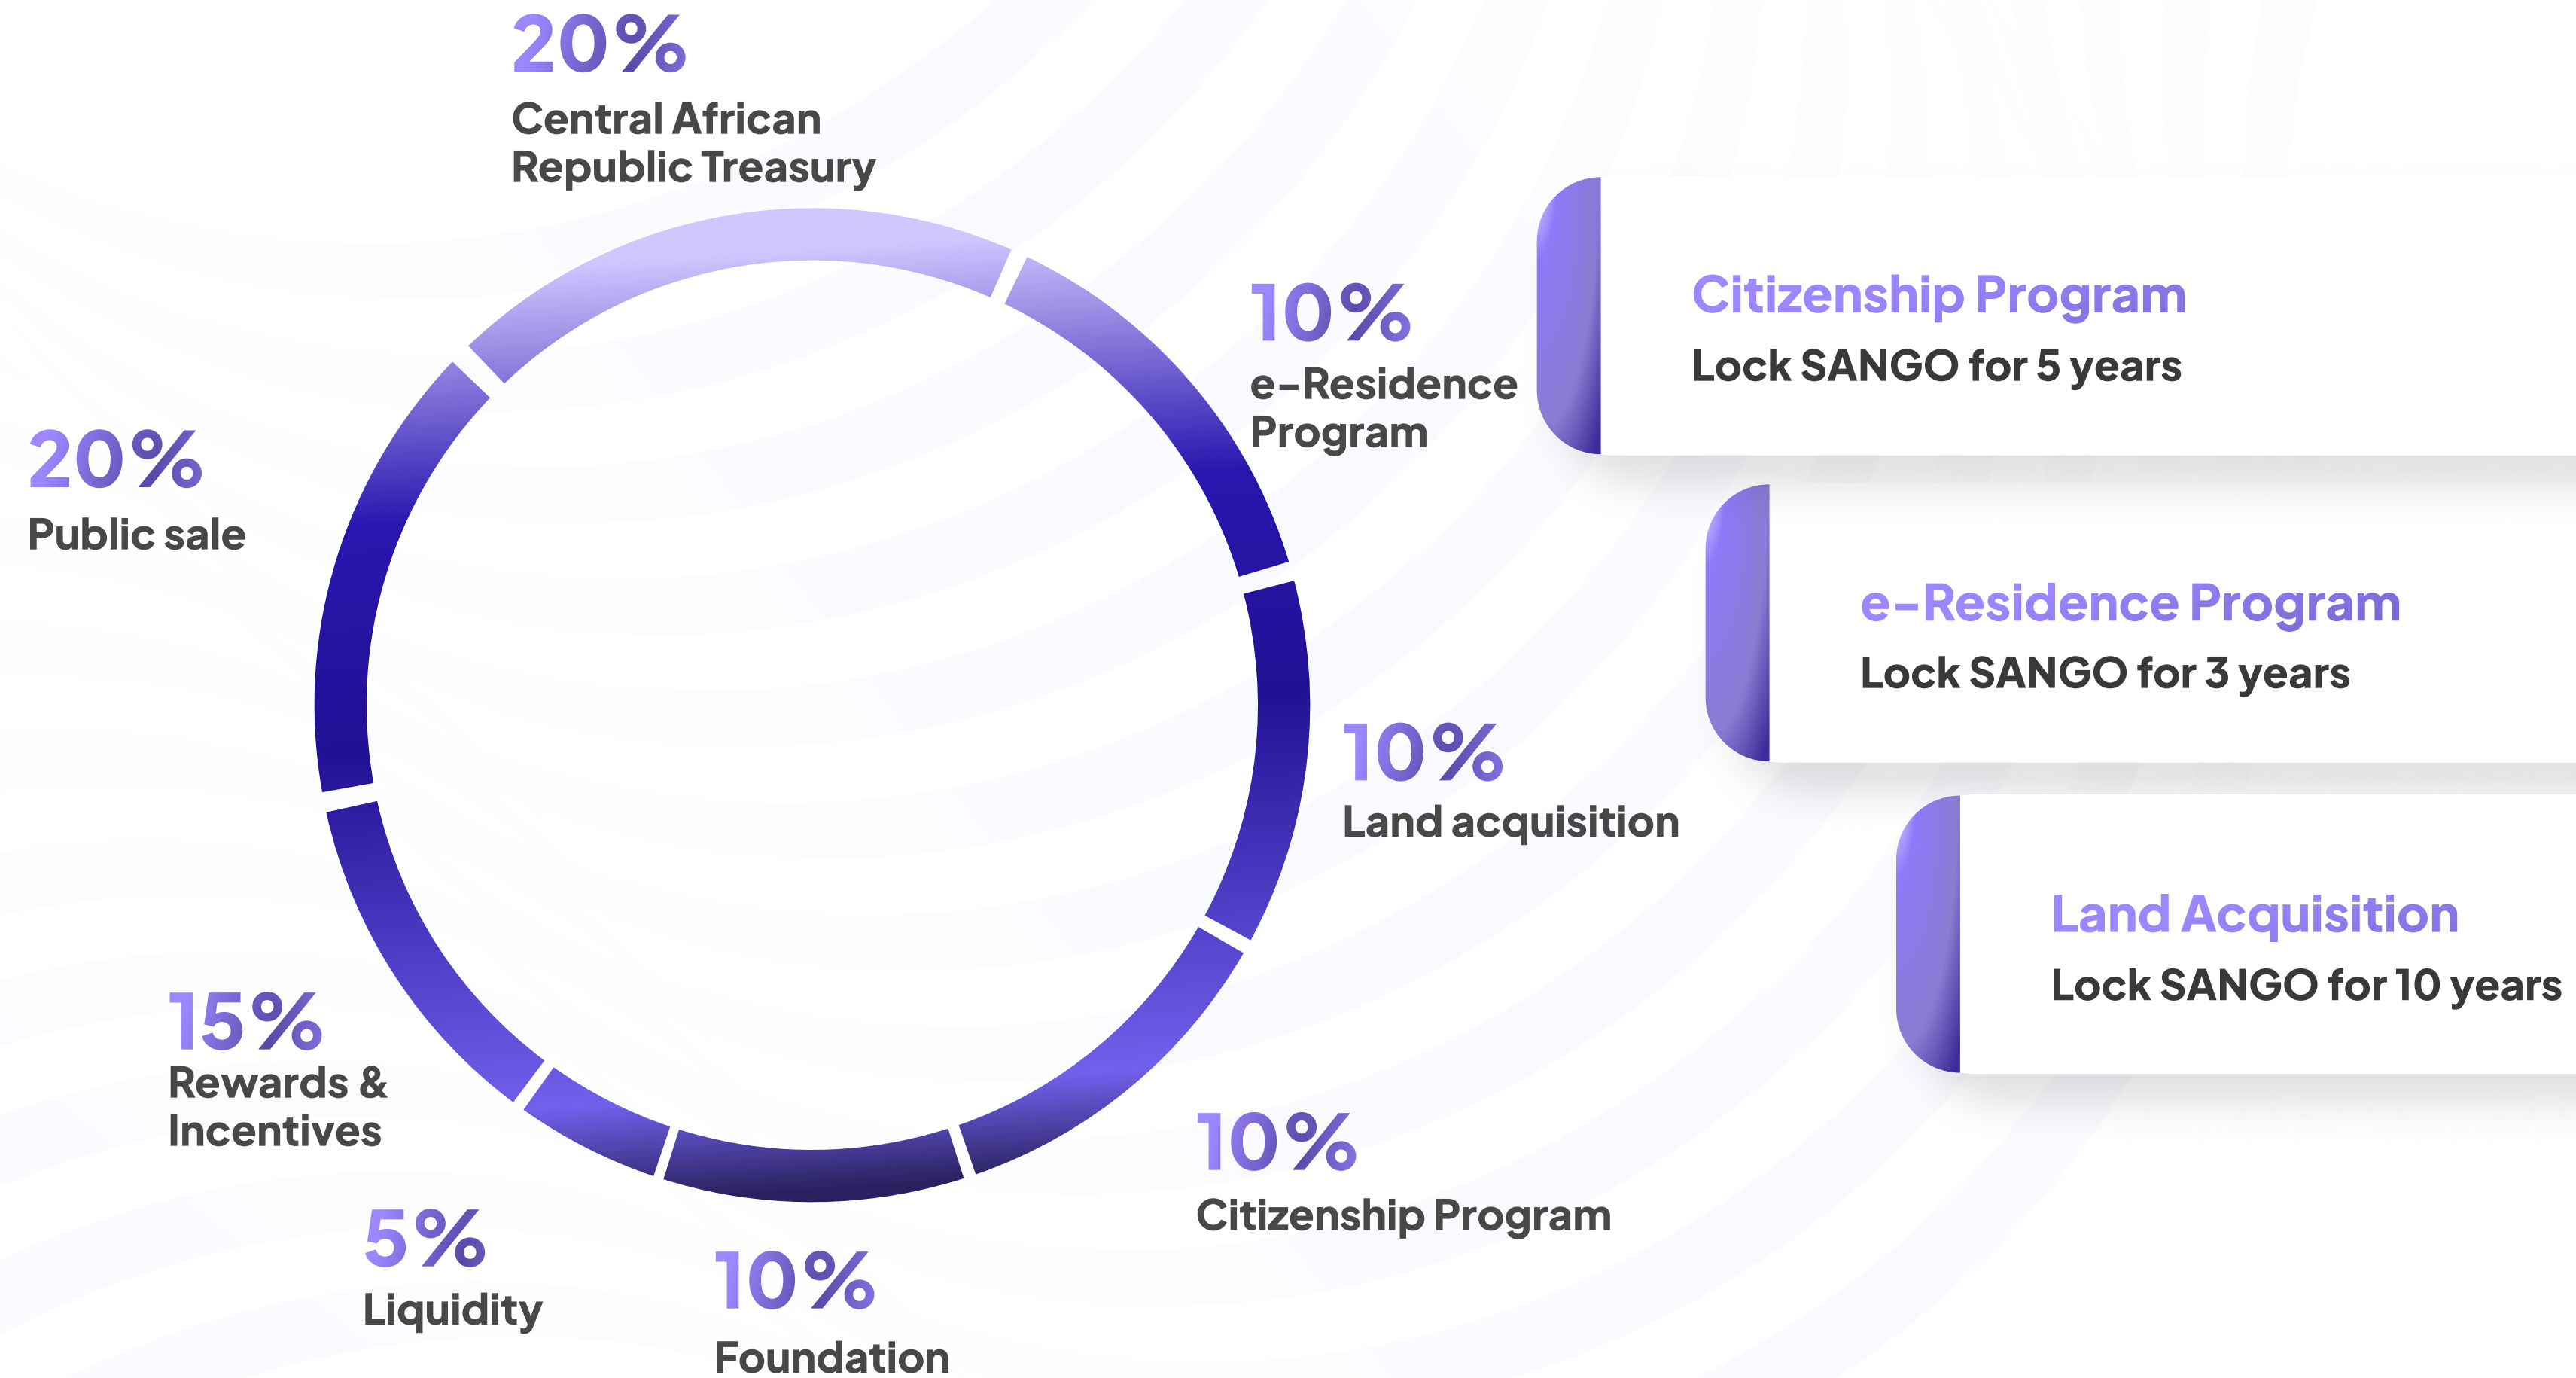

**Access to public auctions &
public-private partnerships
through SANGO**

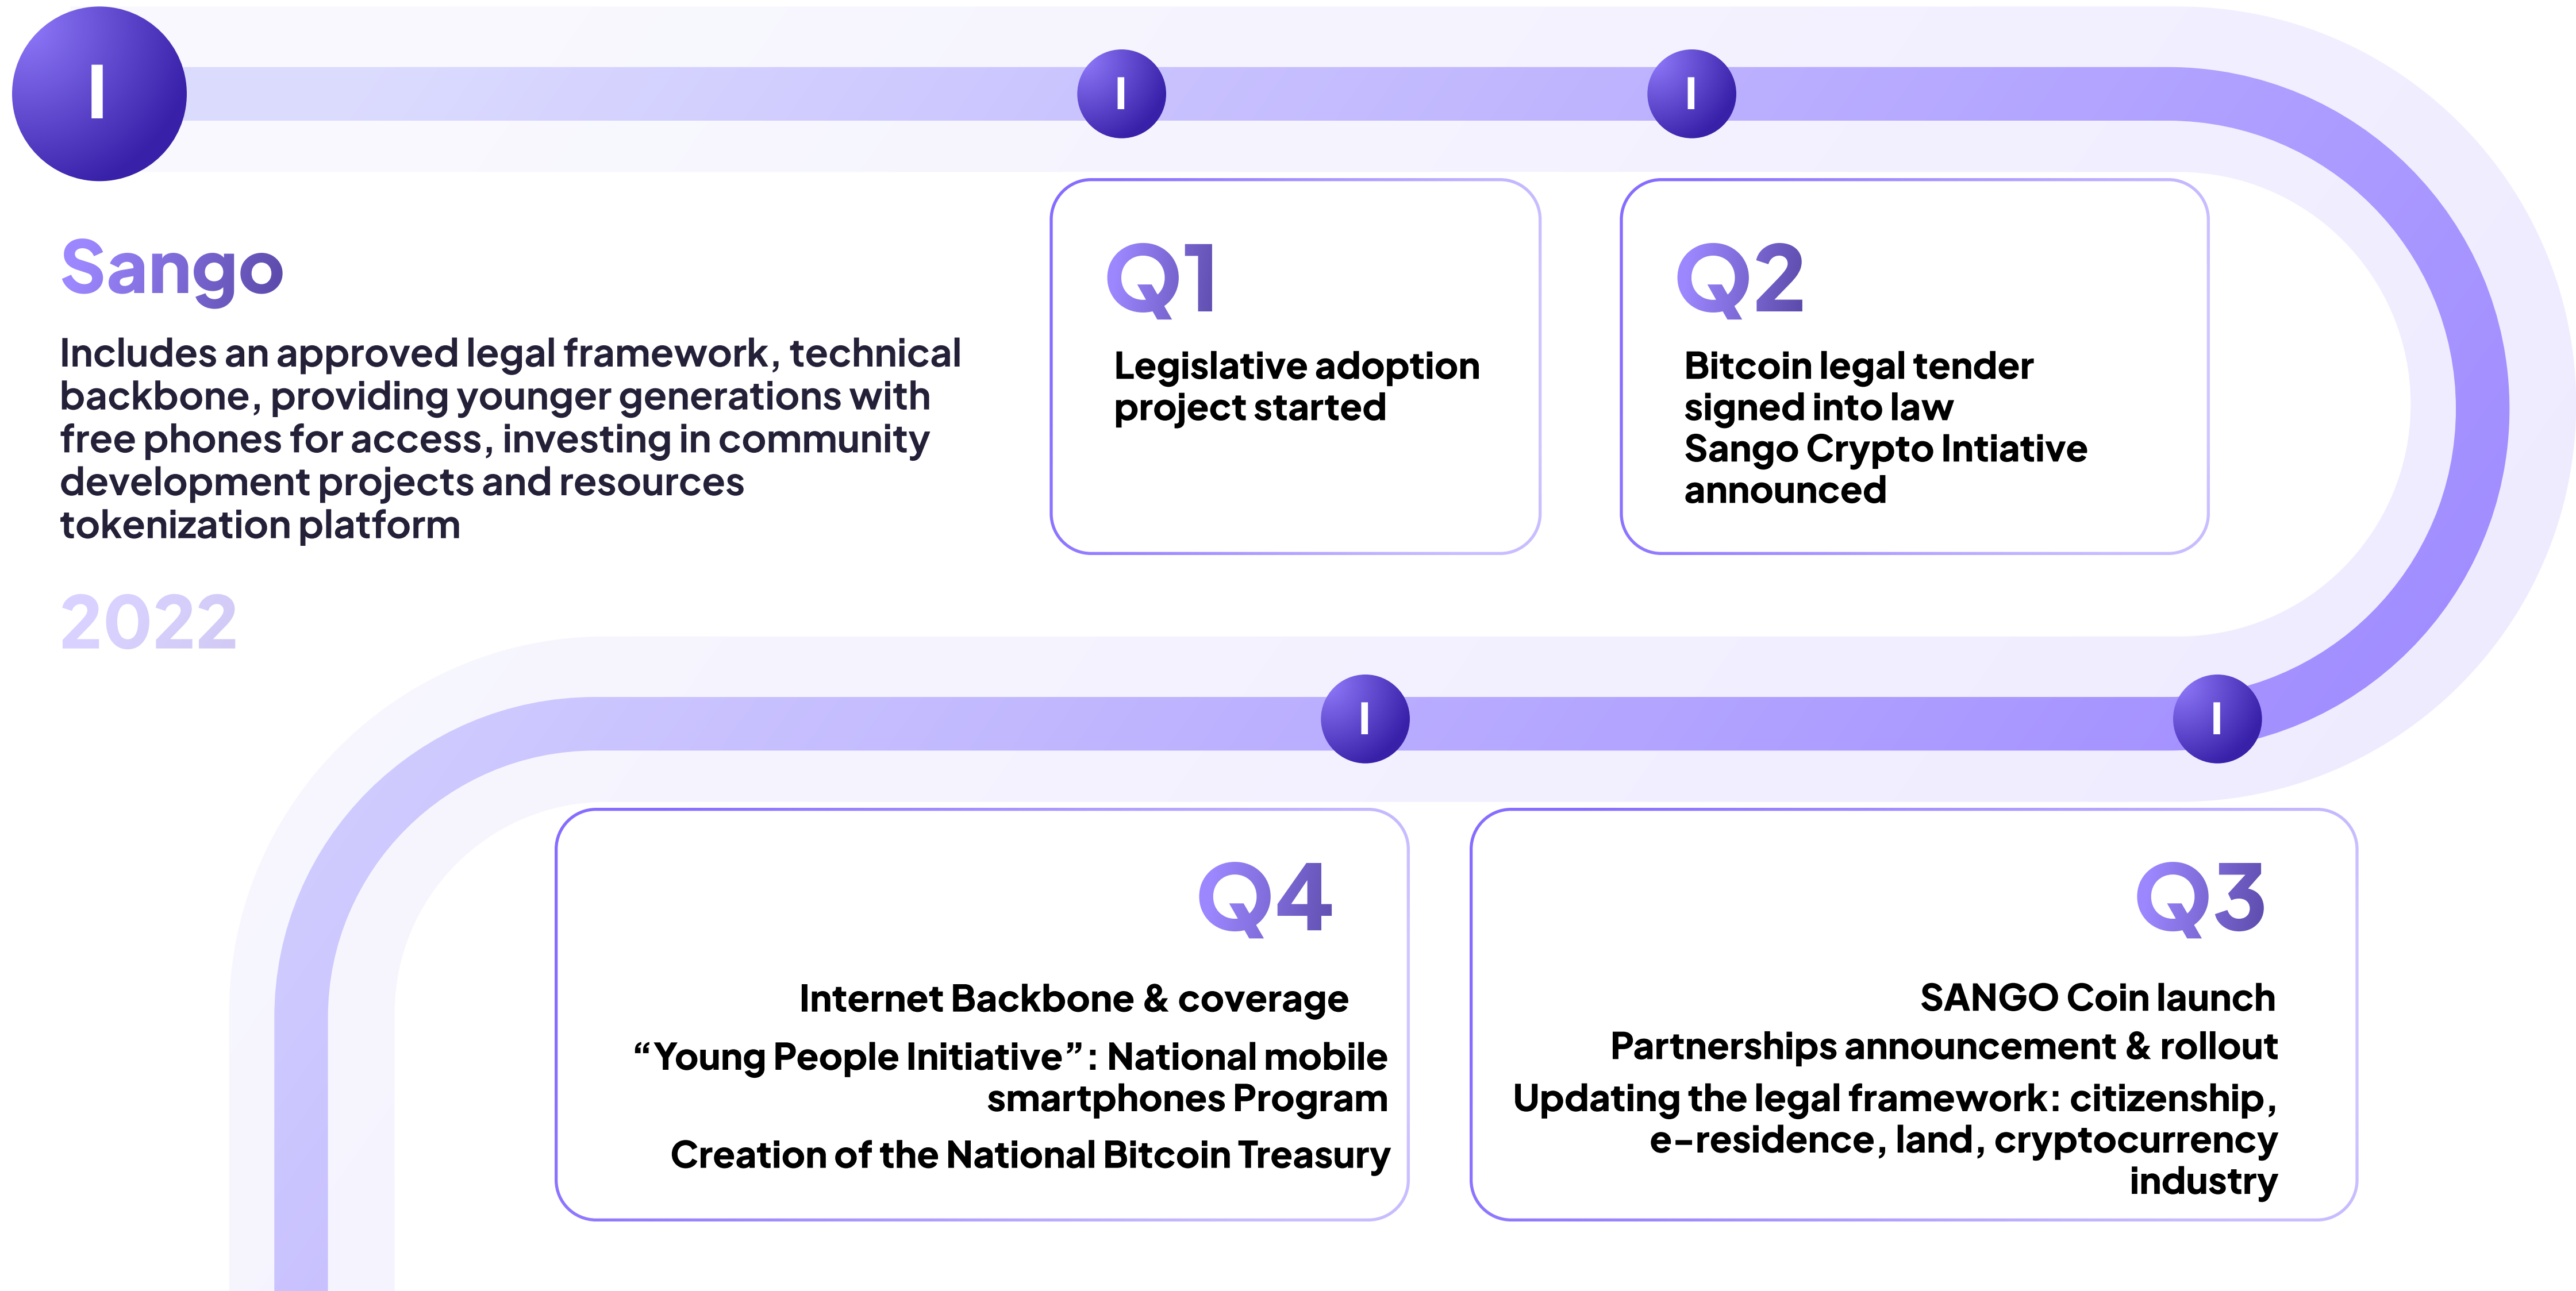

**Availability of tax payments
in SANGO**

**Buying Land from the Government will be
available through SANGO**

SANGO Coin Distribution

SANGO Roadmap

Sango

Includes an approved legal framework, technical backbone, providing younger generations with free phones for access, investing in community development projects and resources tokenization platform

2022

Q1

Legislative adoption project started

Q2

Bitcoin legal tender signed into law
Sango Crypto Initiative announced

Q4

Internet Backbone & coverage
“Young People Initiative”: National mobile smartphones Program
Creation of the National Bitcoin Treasury

Q3

SANGO Coin launch
Partnerships announcement & rollout
Updating the legal framework: citizenship, e-residence, land, cryptocurrency industry

Technical 2023

Sidechain development

Q1
SANGO Bitcoin sidechain testnet
Start citizenship paperwork delivery

Q2
Sango App preview
Add sidechain modules

Metaverse
First Metaverse backed by reality
2023

Q4
SANGO sidechain Mainnet

Q3
Preview of the first reality-backed Metaverse
Resources tokenization platform integration

IV

To Be Announced
2024

Sango Open Alliance

Starting an alliance for creating blockchain powered digital infrastructure

The solution to shape the digital future of countries around the world

Empowering companies to join and build on common ground

Creating opportunities for the local workforce and potential for further development

Issuing SANGO represents Central African Republic's opening to the world with the objective of paving the way to a digital future
